

## School Direct Case Study 2015/16

**First Name:** Bruna

**Age:** 39

### **Occupation before School Direct:**

Freelance translator (Italian>English and vice versa)

### **I chose the School Direct route because:**

I was interested in the opportunity to be fully immersed into teacher training through first-hand teaching experiences. Also, School Direct courses are designed by groups of schools based on the skills they are looking for in a newly qualified teacher, which particularly fits my interest in working locally, in a school environment where I was trained.

### **My preferred choice of provider was RPTSA because:**

It is local and offers a variety of outstanding institutions to work at.

### **What have been the best aspects of School Direct so far?**

The opportunity to be working in excellent schools, with the support of outstanding mentors and tutors.

### **My teaching career plans and aspirations are:**

To start working as a class teacher either in KS1 or KS2 whilst focusing on CPD. In the future I might consider teaching MFL, which I have always been interested in and, I believe, is an area of the curriculum requiring more attention in education.
