

School Direct Case Study 2015/16

First Name: Roshni

Age: 30

Occupation before School Direct:

Interior Designer.

I chose the School Direct route because:

I was under the impression that I would have more time on school placement than I would on a regular PGCE course.

My preferred choice of provider was RPTSA because:

I visited Hampton Hill Junior School prior to applying and liked it very much. I also like that the Alliance offers ongoing support once you are qualified.

What have been the best aspects of School Direct so far?

Knowing well in advance which school I was placed in, so I had the opportunity to make contact. Unfortunately my university timetable did not allow me to visit more than once initially, but it was good to have some form of contact before my preparatory week at the school.

My teaching career plans and aspirations are:

I would like to complete my NQT year successfully, building up my experience. I would eventually like to lead on bringing Mindfulness Practice such as meditation and yoga into mainstream schools in a meaningful and impactful way.
